

2025 ATLife Taiwan Excellence Award for Rental Assistive Technologies < Contest Guidelines >

I. Introduction

In accordance with the international and domestic subsidies for long-term care assistive technology policies focus primarily on rental assistance, the Taiwan Alliance of Technology Industries in Smart Senior Living and Innovative Long-term Care (TATISI) and the Research Center on ICF and Assistive Technology (RICFAT) are planning to organize the **2025 ATLife Taiwan Excellence Award for Rental Assistive Technologies**. The organizers hope to inspire the development and application of such devices through this contest, promote the manufacturing of such devices, and expand related service industries for long-term care in Taiwan.

II. Organizer

Taiwan Alliance of Technology Industries in Smart Senior Living and Innovative Long-term Care(TATISI)

The Research Center on ICF and Assistive Technology, National Yang Ming Chiao Tung University(RICFAT)

III. Co-organizer

Taiwan Assistive Technology and Long-Term Care Industry Association(TATIA)

Taiwan Aging Industry Innovation Development Association(AIIDA)

Taiwan Elderly Care Industry Association(TECIA)

Welfare Organization for the Elderly, Taiwan, R.O.C.(W.O.E.T)

IV. Rules and Terms

1. Eligibility Criteria:

- 1) The companies participating in the contest shall be exhibitors in Assistive Technology for Life 2025 (ATLife 2025), and product entry applications must be filed under the name of the exhibitor's company. **(The deadline to sign up as an exhibitor is Friday, January 24, 2025.)**
- 2) The scope of the contest includes (assistive device) leasing products that meet the CNS 15390 national standard in Taiwan in the broadest sense, such as: general or special products used to prevent, compensate, monitor, reduce or alleviate functional impairment, mobility limitations, or participation restrictions, including installations, equipment, instruments, technology, and software. The above definition refers to "products that assist or improve the life of people with

disabilities that require long-term care (including those with physical or mental disabilities), or debilitated elderly people”, including leasable products developed with government subsidies or self-funded by the market.

2. Restrictions:

- 1) Each company may submit **at most five products**, including products with duplicate entries across different years.
- 2) The product entries must be **the actual physical objects**, instead of product concepts.

3. Entry Fee: The administrative fee is NTD6,000 (tax included) for each product entry. A 30% discount is applicable to products with duplicate entries across different years.

V. Registration Process

1. Registration period: starting from the publication of this guideline to **February 6, 2025**.

2. Registration information:

- (1) **Registration form and statement** (Attachment #1. After stamping with the official corporate seal and the chairman's seal, the documents shall be scanned and submitted only via the PDF format).
- (2) **Product manuals** (Attachment #2, in PDF format only. The content includes: product introduction, product function positioning, specifications, description of product highlights, leasing service descriptions, and more.)
- (3) At least **two photos of the product entry**. (Please provide a file with a JPG format of at least 300 dpi in resolution), and a video introducing the product and its operational instructions.
- (4) **Additional information**, including: domestic or international research on product functional benefits, patent certificates, testing and verification reports, award records, and other relevant supporting documents.

3. Contact Information: Please email the registration form to atlife.award@gmail.com within the registration period, and specify the following as the subject: **“2025 ATLife Taiwan Excellence Award for Rental Assistive Technologies + (Full Name of Your Company)”**

The contest information hotline: +886-2-28746462 #204 (Ms. Fan)

4. Contest Schedule

Registration begins	Registration starts from the date the guideline is released
Registration deadline	February 6, 2025
Time for evaluation by the jury	February 6 – March 3, 2025
Award results announcement date	March 12, 2025
Date of award presentation	April 10, 2025

VI. Jury Process

Representatives from associations from Japan & Taiwan as well as major distribution experts will be invited to serve on the jury.

1. **Preliminary review:** A preliminary team chosen by the organizing unit will be responsible for reviewing the written forms submitted by the applicants. Applications that meet the registration qualification and contest rules, and include all the required information will be sent to the jury team for evaluation.
2. **Jury Evaluation:** based on the written product information submitted as part of the application, the jury members will make selections for products in the “Excellence Award” and “Merit Award” categories. The result of the contest will be announced on the ATLife official website.
3. Each product entry that advances to the Jury Evaluation stage qualifies for discounted registration for individual consultations on the business model with assistive device leasing services in Taiwan or Japan by Director Kiyokuni Goshima from The Association for Technical Aids (ATA).
4. Evaluation key points:

Category	Content	Ratio
Product Features	<ol style="list-style-type: none"> 1. The product is made to meet the needs of seniors and those with disabilities, and is suitable for use in their living environment. 2. VIII. Key Points for Registration

1. Companies registering for the contest shall enter various required information truthfully. Since the jury evaluation will be conducted based on the submitted documents, applications with insufficient information or submitted without the designated registration forms will adversely affect the evaluation outcome. Those who receive notification of additional requirements shall supply the necessary information within the deadline. Product entries that fail to provide required supplementary information shall be disqualified and eliminated from the jury evaluation process.
2. The organizing unit shall be free to use the information submitted by the winning companies (except for the terms of the signed confidentiality agreement), for various uses including exhibition, promotion, photography, and publishing. The information and content submitted for the contest will not be returned to the applicants, even after the evaluation is finished.
3. Companies participating in the contest shall abide by the regulations specified in the Copyright Act. The information and supporting material submitted for the registration shall not infringe on the intellectual property rights of others. In addition, the relevant product data and information submitted shall be the real data, which may not be arbitrarily expanded or withheld.

During the evaluation process, if the data content provided by the applicant contains false information or violates the rights and interests of others, the organizer has the right to disqualify the applicant after verification. After the evaluation process concludes, if the above violations are found or disputes occur regarding the product qualification, the organizer has the right to announce the disqualification of the award winners. In addition, the company participating in the contest shall be responsible for all legal responsibilities without objections.

4. For medical equipment that are classified for monitoring and inspection, inspection registration, license, and other certification documents from the Ministry of Health and Welfare are required.
5. If confidentiality of the product information is necessary and a non-disclosure agreement is required, please contact the organizer directly.

※ The organizer reserves the right to modify and make final clarification of the rules and dates of the event. In the event of any matters unspecified in the guidelines, the organizer may modify the rules or event dates accordingly and announce the results on the ATLife website without further written notice.
